

TEAMFIGHT TACTICS

Developer API Policy

Before you begin, read through the [General](#) and [Game Policies](#), [Terms of Use](#) and [Legal Notices](#). Developers must adhere to policy changes as they arise.

Registration

If your product serves players, you must register it with us regardless of whether or not your product uses official documented APIs. You must make sure its description and metadata are kept up to date with the current version of your product.

Monetization

To monetize your product, you must abide by the following:

- Your product cannot feature betting or gambling functionality.
- Your product must be registered on the Developer Portal and your product status is either Approved or Acknowledged.
- You must have a free tier of access for players, which may include advertising.
